MEMORANDUM FOR THE RECORD

SUBJECT: Radio Free Europe and Radio Liberty - Question by Robert Michaels Concerning Use of Television

1. In response to a query from Mr. Robert Michaels, House Appropriations Committee staff, during discussion on 8 July of the Director's letter on Radio Free Europe and Radio Liberty to Mr. Mahon, I advised Mr. Michaels that the Agency is sincerely interested but that utilization of television is a heavy chore and a complicated one. I advised him that there are technical specialities involved that we do not have readily available. Mr. Michaels thanked me for the information and indicated he had hoped that we were at least looking at the possibility.

2. Prior to responding to Mr. Michaels I talked to [redacted] 25X1A  
at some length after explaining to him the genesis of the question. The  
foregoing information provided Mr. Michaels was generally agreed upon  
during the conversation with [redacted] 25X1A
